About This Content

Spanning the North Wales Coast Line from Crewe to Holyhead, and also featuring the iconic Conwy Castle across 85 miles of cross-border railway line, Train Simulator's North Wales Coastal route marries seaside views with both local and inter-city services from Arriva Trains Wales and Virgin Trains West Coast.

Ever since the Act of Union in 1801, which saw Ireland become part of the United Kingdom, people have strived to improve the connection between the two isles. In the early 19th Century, a combination of horse-drawn transport and sailing ships was the only option; that was until the 1840s, when the Chester and Crewe Railway and later, the Chester and Holyhead Railway were incorporated.

The full line was soon completed in 1848. Irish Mail would regularly work the line from London to Holyhead, and the LNWR, being in control of the West Coast Main Line and the line to Holyhead soon after, saw an opportunity for a spike in tourist traffic. Trains were put on to serve seaside resorts like Rhyl, Colwyn Bay and along the Llandudno branch, setting in stone the line's popularity. This tale would continue through the Big Four, British Railways and Sectorisation eras, and despite freight being less common today, the line has remained a local and long-distance passenger haven with over 90 trains a day.

Visit the seaside today with North Wales Coastal Extension, which now allows you to enjoy the entire Crewe to Holyhead route, featuring the Virgin Trains BR Class 221 "Super Voyager", and Arriva Trains Wales' BR Class 158 "Express Sprinter" and BR Class 175 "Coradia" DMUs.

Included Scenarios

The North Wales Coastal Route Extension Add-On includes 7 challenging career scenarios and 2 Railfan Mode scenarios

- [221] 01. At the Crack of Dawn
- [221] 02. Crossing the Border

- Download size: 264.2 MB

Title: Train Simulator: North Wales Coastal Route Extension Add-On

Genre: Simulation

Developer:

Dovetail Games

Publisher:

Dovetail Games - Trains

Franchise:

Train Simulator

Release Date: 14 Feb, 2019

a09c17d780

Minimum for 32-bit:

OS: 32-bit Windows 7 Service Pack 1, 8.1 or 10 Required (Other OS versions and types are not supported)

Processor: Intel Core-i3 4330 3.50 GHz Dual Core or AMD A8 6600K 3.90 GHz Quad Core or Better

Memory: 4 GB RAM

Graphics: NVIDIA GeForce GTX 750 Ti or AMD Radeon R9 Graphics with 1 GB Dedicated VRAM or Better

DirectX®: 9.0c

Network: Broadband Connection (May incur additional costs for use)

Storage: 40 GB or more available space (Additional Add-Ons will require more)

Sound Card: DirectX Compatible Audio Device

Additional Notes: Requires Low Power version of Xinput Controllers (including Intel or Integrated Graphics) may work but are not supported. Updates to Chipset, Graphics and Audio Device Drivers may be required. For information relating to recommended specifications for Train Simulator 64-bit, please refer to the Train Simulator User Guide.

English,French,German,Simplified Chinese

I have just purchased this extension and driven from Llandudno to Holyhead and found the run to be most pleasant.
As the extension comes without any freight\goods trains I have decided to purchase the Scenario pack, which should satisfy my shunting fetish.
I believe the Home Signal into Llandudno Junction Station from the Holyhead direction, should have been fitted with a "Low Speed Light" so trains heading into the "Reception Siding" on the right-hand side of the station, could call for a light {TAB}
The use of the "TAB" instruction as it is gives you a denied response.
